[Ronda compilation](#) - "Je suis un étranger"

This compilation gathers artists around a common theme: spoken languages. Each artist was assigned a language and created a piece integrating samples of this particular language: starring Mils (Polish), dDamage (German), Displacer (Chinese) c.H.District (Russian) among others...

This patchwork of cultures forms an astonishing unity and brings together artists from a varied range of musical backgrounds (electro, rock, musique concrète,...)
